PROFESSIONAL EXPERIENCE

Varience Cybertech

Frontend Developer | 2014 – 2025

- As a Frontend Developer at Variance Cybertech, I worked on building responsive and user-friendly web applications using HTML, CSS, JavaScript, Bootstrap, and Sass. I was responsible for creating interactive UI components, designing modern layouts with Bootstrap, customizing styles with Sass, and ensuring cross-browser compatibility. My role also involved optimizing performance across devices and collaborating with the team to deliver clean, maintainable, and scalable frontend code.

Internship, Tarayana Foundation Noida(Remote)

. Google Adsense | 2022 – 2023

- To leverage my internship experience in the Digital Marketing Department at Tarayana Foundation (Remote, Noida), where I gained practical exposure to Google Ads campaign management, keyword research, and performance analysis, and apply these skills to contribute effectively to future digital marketing initiatives.
